# about

## The Mobile Culinary Theatre

This fully functional mobile demonstration kitchen can be the centerpiece of your next event. Attracting notable chefs will provide great entertainment and education for your audience.

At 28 feet long and 15 feet deep (with the stage out) there's plenty of room for your chefs to put on a great show. The Mobile Culinary Theatre also allows for excellent views from a full semi-circular audience, maximizing its footprint at your event.

Including modern technology (video camera hooked up to flat screen TV's, PA system for music and vocal reinforcement) and tons of up-to-date appliances, there's nothing else a chef would need to engage and enthrall your audience.

Plus, it's mobile! Get moving and reserve it for your event today!
